d) an industrial property right.

2) that designation of origin or geographical indication confers on the person the right to prohibit the use of a subsequent trade mark.

4. A mark shall be registered or registration of a trade mark shall not be declared invalid where the proprietor of the earlier trade mark or other earlier right consents to the registration of the later trade mark.

Article 9. Grounds for Refusal or the Invalidation of Registration Relating to Only Some of the Goods or Services

Article 10. Establishment *a Posteriori* of Invalidity or Revocation of a Trade Mark

Where the seniority of a trade mark registered in the Republic of Lithuania or of a trade mark registered under the Madrid Protocol having effect in the Republic of Lithuania, which has been surrendered or allowed to lapse, is claimed for an EU trade mark, the invalidity or revocation of the trade mark providing the basis for the seniority claim may be established *a posteriori* (based on later circumstances), provided that the invalidity or revocation could have been declared at the time the mark was surrendered or allowed to lapse. In such a case, the seniority shall cease to produce its effects.

Article 11. Lack of Distinctive Character or of Reputation of an Earlier Trade Mark Precluding a Declaration of Invalidity of a Registered Trade Mark

An application for a declaration of invalidity on the basis of an earlier trade mark shall not succeed at the date of application for invalidation if the proprietor of the later trade mark proves the existence at the filing date or the priority date of the later trade mark of any of the following circumstances:

1. Where the proprietor of an earlier trade mark as referred to in paragraph 2 of Article 8 has acquiesced, for a period of five successive years, in the use of a later trade mark registered in the Republic of Lithuania while being aware of such use, that proprietor shall no longer be entitled on the basis of the earlier trade mark to apply for a declaration that the later trade mark is invalid in respect of the goods or services for which the later trade mark has been used, unless registration of the later trade mark was applied for in bad faith.

2. Paragraph 1 of this Article shall apply to the proprietor of any other earlier right referred to in subparagraph 5 of paragraph 1 of Article 8.

2. Without prejudice to the rights of proprietors acquired before the filing date or the priority date of the registered trade mark, the proprietor of that registered trade mark shall be entitled to prevent all third parties not having his consent from using in the course of trade, in relation to goods or services, any sign where:

3) the sign is identical with, or similar to, the trade mark in relation to goods or services which are not similar to those for which the trade mark is registered, where the latter has a reputation in the Republic of Lithuania and where use of that sign without due cause takes unfair advantage of, or is detrimental to, the distinctive character or the repute of the trade mark.

2) is liable to be confused with a well-known mark in relation to goods or services which are not identical and similar to those under the well-known mark, provided that use of that mark in relation to goods and services would indicate a connection between those goods and/or services and goods or services under a well-known mark and provided that the interests of the proprietor of the registered well-known mark are likely to be damaged by such use.

Article 15. The Right to Prohibit Preparatory Acts in Relation to the Use of Packaging or Other Means

Where the risk exists that the packaging, labels, tags, security or authenticity features or devices, or any other means to which the trade mark is affixed, could be used in relation to goods or services and that use would constitute an infringement of the rights of the proprietor of a trade mark under Article 14(2) and (3), the proprietor of that trade mark shall have the right to prohibit the following acts if carried out in the course of trade:

1) affixing a sign identical with, or similar to, the trade mark on packaging, labels, tags, security or authenticity features or devices, or any other means to which the mark may be affixed;

If there are sufficient grounds to suspect that the rights established by this Law have been infringed, the court may, in accordance with the procedure laid down by the Code of Civil Procedure, apply interim measures necessary to prevent imminent infringing activities, to promptly terminate infringing activities and to enforce a final decision of the court, that is:

- 1) to forbid persons to commit an imminent infringement of the rights established by this Law;
- 2) to order persons to temporarily terminate an infringement of the rights established by this Law;
- 3) to forbid an intermediary to provide services to a third party who uses such services by infringing the rights established by this Law;
- 4) to seize copies of the subject matters of the rights established by this Law as well as goods, prevent their entry into or remove them from the channels of commerce, if it is suspected that they are infringing the rights established by this Law;
- 5) to seize the property of the persons suspected of infringing the rights established by this Law, which is possessed by the said persons or a third party, including the accounts of banks and other credit institutions; also to order the communication of bank, financial or commercial documents, or appropriate access to these documents in the case of an infringement committed on a commercial scale;
- 6) to apply other measures laid down by the Code of Civil Procedure.

3. If the interim measures which are referred to in subparagraphs 1 and 2 of paragraph 2 of this Article and which have been applied are being infringed and the infringement continues, the court may order the persons suspected of committing an infringement to lodge adequate assurance intended to ensure that a person who has applied for interim measures will be compensated for a possible prejudice.

4. The court shall have the right to require the person who applies for interim measures to provide any reasonably available evidence in order to satisfy the court with a sufficient degree of certainty that the said person or the person in whose interest interim measures are applied for is the holder or user of the rights established by this Law and that the applicant's right is being infringed, or that such infringement is imminent.

5. The court may, on application by a person who has presented reasonably available evidence to support his claims that the rights established by this Law have been infringed or are about to be infringed, may apply interim measures or measures for preserving evidence, subject to the protection of confidential information, thus preserve relevant evidence in respect of the alleged infringement, that is:

1) to describe in detail the goods infringing the rights established by this Law and to seize them, or only to describe them;

2) to seize the products infringing the rights established by this Law and, in appropriate cases, the materials and implements used in the production and/or distribution of these products as well as the documents relating thereto;

3) to apply other prompt and effective interim measures provided for in the Code of Civil Procedure.

6. Interim measures and measures for preserving evidence may be applied without the defendant having been notified or heard, in particular where any delay would cause irreparable harm to the applicant or where there is a demonstrable risk of evidence being destroyed. Where interim measures are applied without the defendant having been notified and heard, the defendant must be given notice without delay, i.e. after the application of such measures at the latest. At the request of the parties, including a right to be heard, the interim measures may be reviewed with a view to deciding, within a reasonable period after the notification of application of the measures, whether such measures must be modified, revoked or confirmed.

7. Where the applied interim measures or measures for preserving evidence are revoked by the court or where they lapse due to any act or omission by the person who applied for them, or where a decision of the court establishing that there has been no infringement or threat of infringement of the rights established by this Law comes into effect, or where the person, who has applied for provisional measures or measures preserving evidence, does not institute proceedings within a period determined by the court, the defendant shall be entitled to request compensation for any injury caused by application of those measures.

Article 74. Corrective Measures

1. The persons specified in paragraph 1 of Article 70 of this Law shall be entitled to apply to the court and request that goods be recalled, removed from the channels of commerce in such a manner as to avoid any harm being caused to the said persons and to ensure the protection of their rights (e.g. to remake the infringing goods into other goods or to apply similar measures), or to request that the goods, which the court has found to be infringing the rights established by this Law and, in appropriate cases, the materials and implements principally used in the creation or manufacture of the specified objects be destroyed.

2. The measures referred to in paragraph 1 of this Article shall be applied regardless of other requirements of a person, applying for these measures, for compensation of the prejudice suffered as a result of the infringement of his rights. Such measures shall be applied at the expense of the infringer, without compensating and taking into account proportionality between the seriousness of the infringement

and the measure applied as well as the legitimate interests of third parties.

Article 75. Recovery of Material and Non-Material Damage

1. The procedure for recovery of material damage shall be regulated by the Civil Code and this Law.

2. When assessing the amount of the actual damage (losses) incurred as a result of the infringement of the rights established by this Law, the court shall take into account the substance of the infringement, the amount of the inflicted damage, lost income, incurred expenses, and other important circumstances. Profit made by the infringer may, at the request of the persons specified in paragraph 1 of Article 70 of this Law, be recognized as losses. Goods infringing the rights established by this Law may be transferred to the holders of those rights upon their request.

3. The amount of income lost by the persons specified in paragraph 1 of Article 70 of this Law shall be set by taking into account the amount of income which would have been made if the trade mark protected under this Law had been used legally (i.e. taking account of the royalties which are usually paid for the legal use of the trade mark), as well as the specific circumstances which might have created conditions for making income (works performed by the right holders, implements used, negotiations for conclusion of contracts concerning the use of the trade mark, etc.).

4. Instead of the recovery of the damage (losses) actually suffered by reason of the infringement of the rights established by this Law, the persons specified in paragraph 1 of Article 70 of this Law may claim the payment which would have been due if the infringer had used the trade mark legally (i.e. had acquired permission), and where the infringement has been committed intentionally or through gross negligence – the said persons may claim up to twice the amount of such payment.

5. Where the infringer did not knowingly, or with reasonable grounds to know, engage in infringing the rights established by this Law (i.e. there is no fault in his actions), the court may, upon request of the persons specified in paragraph 1 of Article 70 of this Law, order the recovery of profit made by the infringer. A total that the infringer has saved and/or made by infringing the rights established by this Law shall be regarded as the profit made by the infringer. The profit made by the infringer shall be ascertained and recovered regardless of whether or not the right holder would have made the same profit as the infringer. When ascertaining the profit made by the infringer, the right holder must provide only the evidence that would confirm the gross income received by the infringer; the amount of net profit of the infringer (after deducting the expenses) must be proved by the infringer.

6. A person who has infringed the rights of the proprietor of the mark must compensate for non-monetary damage. The amount of this damage in cash shall be determined by the court in accordance with the provisions of the Civil Code governing non-monetary damage.

Article 76. Publication of Judicial Decision

The court which takes a decision on the infringement of the rights established by this Law may, at the request of the persons specified in paragraph 1 of Article 70 of this Law, order the infringer to disseminate at his own expense the information concerning the adopted decision, including disseminating the decision in full or in part in the mass media or by any other means. A judicial decision or information concerning an adopted decision may be announced after the coming into effect of the decision, unless otherwise established by the court. The manner and extent of dissemination of a judicial decision shall be laid down in this judicial decision. The persons specified in paragraph 1 of Article 70 of this Law may request that the infringer pay in advance into the bank account, indicated by the court, a sum of money necessary to disseminate the information concerning an adopted judicial decision or an adopted judicial decision itself.

Article 77. Application of Customs Supervision Measures

Customs supervision measures determined by legal acts of the European Union and the Republic of Lithuania shall be applied to the goods illegally bearing a trade mark infringing the rights established by this Law, which are imported from third countries into the Republic of Lithuania without being released for free circulation in the territory of the Republic of Lithuania, or are exported from it to third countries.
